

Week 1 3/16-3/22

ATTENDEES

Brian Lucas, Charle Bui, Dylan Brian, Katie Eisenhuth, Mitch Marcus, Nana Boakye, Theresa Gullo, James Frake, Qurat Ain, Jared Griffin, Waqar Baig

KEY POINTS

- Dylan named Group Leader
- Katie named Note Taker
- Week spent sharing knowledge on different deployment strategies (Heroku, FastAPI, and Firebase)
- Firebase may be the best option as both Front-end and Back-end can be created on the same application
- Shared ideas on app features such as audio and image resizing
- Dylan created framework for code
- Determined tentative teams for tasks and code
- Shared links for REACT so everyone can familiarize themselves with it

Project Plan

- Schedule created by Thesea
- Plan draft created by Dylan
- Task sign-up sheet created by Charle

ACTION ITEMS

1. Created a GitHub for everyone to have the ability to contribute and so all documents are in one place.
2. Framework and general layout of project code created
3. Created a to do list for the week to come.
4. Determined team member strengths so that code teams are evenly distributed

NEXT WEEK'S AGENDA

1. Complete project plan
2. Make sure everyone has signed up for a task and that the work is spread evenly
3. Brainstorm design aspects of App
4. Make sure everyone is comfortable with REACT and Firebase
