Week 7 4/27-5/3

ATTENDEES

Brian Lucas, Charlie Bui, Dylan Brian, Katie Eisenhuth, Mitch Marcus, Nana Boakye, Theresa Gullo, James Frake, Qurat Ain, Jared Griffin, Waqar Baig, Marriette Tchinkou

KEY POINTS

- Charlie created the Phase 3 documentation
- Components Team / Recommendation Team Completed Tasks:
  - Created Feed, NavBar, SignUp, Login,
  - Ability to like photos in the feed
  - Ability to upload photos.
  - Established routing for app
  - Comments on photos in feed
  - Ability to accept/deny friend requests
  - Ability to remove friends
  - Bio section in profile
  - Set profile photo when creating an account
  - Comment on user's profile photos
- Data Team Completed Tasks:
  - Email and password registration
  - Email and password log in
  - Log out
  - New user created in database upon registration
  - React Context & Provider for Authentication observer
  - Google sign up and login
  - Ability to delete user account
  - Ability to delete a post
  - Ability to add a new post to the database and photo to cloud storage
  - Implement back end for functionality with components
  - Ability to retrieve all user posts and profile data
  - Ability to retrieve user's friends' posts for photo feed
  - Ability to retrieve list of friends
  - Email address verification
  - Sending of password reset email

- ■ Adding or removing friends from user's friend list
- ■ Resizing photos on upload
- ● Testing Team Completed Tasks:
  - ■ Created snapshot testing of all components
  - ■ Tested Navigation bar functionality and routing
  - ■ Tested Feed page for functionality and routing
  - ■ Tested Feed page after login
  - ■ Tested sign up page rendering
  - ■ Tested login page rendering
  - ■ Tested unauthed app navigation
  - ■ Tested sign up function
  - ■ Tested login function
  - ■ Tested user profile/ settings rendering
  - ■ Tested friends page rendering
  - ■ Tested unauthed app navigation
  - ■ Tested authed app navigation

ACTION ITEMS

1. Completed Phase 3 source Document
2. Completed Phase 3 discussion
3. Completed more tasks
4. Created plan for those tasks behind schedule
5. Components Team / Recommendation Team finish tasks:
   a. Image classification on upload
   b. Set profile to private
   c. Update passwords in settings
   d. Create recommendation API
6. Data Team finish tasks:
   a. create context API
   b. Ability to edit user profile
7. Testing Team finish tasks:
   a. Test sign up function
   b. Test login function
   c. Test user upload functionality
   d. Test user comment functionality
   e. Test if user can accept/ deny/ remove friends
   f. Test user bio functionality
   g. Test user profile settings (password/ privacy settings) functionality

NEXT WEEK'S AGENDA

1. Complete Final Source code
2. Complete Final documentation/Deliverables

3. Brainstorm strategies to get tasks behind schedule completed

GITHUB AUDIT LOG WILL BE ATTACHED

Audit log covers changes made to the github from 4/27/22-5/3/22

GROUP MEMBER CONTRIBUTION

Member Name	Contributions
Brian	-Helped organize Github and research deployment ideas -Created the back-end repository (before we decided it was not needed) -Used experience to help group make decisions -Active on Discord running new ideas by group -signed up for a task -completed skills questionnaire -Components team lead -created draft of components team code -completed weekly schedule -helped with testing code -completed components phase 1 code -Helped others on components team complete tasks -completed tasks for phase 2 code -completed tasks for phase 3 code
Charlie	-Created task sign-up sheet -Active on discord running new ideas by group -Helped determine different group tasks -Signed up for a task -completed skills questionnaire -created rough draft of test plan -testing team lead -completed weekly schedule -Completed test plan -completed test and user guide discussion -Finalized phase 1 code for testing -Created Phase 2 documentation -helped those on testing team with their tasks -completed phase 2 testing code -completed phase 3 testing code
Dylan	-Created github and discord server -created outline for project and project idea -Created framework for code -Used experience to help group make decisions -Actively on Discord running new ideas by the group

	-Helped create project plan -Created to-do board for Documents Repository -Signed up for a task and created tentative teams through experience levels -completed skills questionnaire -Recommendation team lead -completed weekly schedule -created and posted week 2 discussion for the team -Created a design prototype for mobile devices -Helped with testing code -Consolidated github threads -Helped create and finalize Design Documents -Helped each team with phase 1 code -led workshop on git basics -Cleaned up phase 1 code -Cleaned up phase 2 code -Made sure all code was in working order before being approved and merged into dev branch of git repository -Cleaned up phase 3 code -Updated to React 18 -Added recaptcha
Katie	-Volunteered to be the notetaker -Active on discord running new ideas by the group -Created App name -Designed App logo -Created Notes Repository -Signed up for a task -completed skills questionnaire -completed weekly schedule -Added contribution notes and app logo/description to project plan -member of the components team -create flow diagram for user guide -created privacy policy and terms of service for the app -Helped create design documents -made changes to the CSS sheet -continued to work on phase 1 and 2 tasks -continued to work on assigned tasks
Mitch	-Active on discord running new ideas by the group -created two layout designs for the app for group to choose from -Helped with determining if we should include audio in app -Signed up for a task -created mock up designs for mobile and desktop devices -completed skills questionnaire -completed weekly schedule -member of the data team -Helped with data team phase 1 source code

	-completed phase 1 code for data team -worked on phase 2 code for data team -completed phase 3 code for data team
Nana	-Active on discord -Signed up for a task -completed skills questionnaire -Member of the testing team -Coded tests for the app -Helped create tests for phase 1 source code -completed test code for phase 2 -helped with test code for phase 3
Theresa	-Active on discord running new ideas by the group -Creating drafts of assignments to run by group -Used experience to help group make decisions -Created assignment due date schedule -Helped create project plan -Signed up for a task -created draft plan for data storage -completed skills questionnaire -completed weekly schedule -Data team lead -worked on data code -Helped create the design deliverable -Helped with data team phase 1 source code -completed all assigned tasks for the data team -continued to help other team members with tasks -completed phase 2 code for data team -completed phase 3 code for data team
James	-Active on the Discord -Signed up for a task -completed skills questionnaire -completed weekly schedule -member of the components team -started design code -Helped with components team phase 1 source code -worked on friends list component for phase 2 source code -continued to work on phase 3 code
Qurat	-Joined the discord -completed skills questionnaire -completed weekly schedule -created dummy email account for team to use for firebase testing -member of the data team -Helped with data team phase 1 source code -Helped with data team phase 2 and 3 source code

Jared	-Active on Discord -Signed up for task/team -completed skills questionnaire -completed weekly schedule -member of the testing team -Helped with testing code -Helped create tests for phase 1 source code -helped create tests for phase 2 source code -helped create tests for phase 3 source code
Waqar	-Joined the discord -Joined Github repository -completed skills questionnaire -active on group discord -Got on the git basics workshop
Mariette	-Active on discord running new ideas by the group -Signed up for a task -completed skills questionnaire -completed weekly schedule -member of the recommendations team -Helped dylan with recommendations -Got on the git basics workshop -continued to help where needed for all three teams
